

Miss Cragg

Poland was a beautiful country to visit and was my first time going there. On the first day we had a guided tour around the Jewish Quarter of Poland in which we saw the Ghetto and was explained the details of how Polish Jews were affected during the war.

On the second day we were up super early and made our way to Auschwitz, I have never experienced emotions quite like I did at Auschwitz. The whole aspect of a concentration (death) camp is truly barbaric and is something that I hope never happens again! The conditions that people were expected to live and work in were unimaginable.

Our tour guide was fantastic and was incredibly emotive throughout.
