

# ZAK'S STORY

## Why the Inclusion Room is important to me.

I come to the Inclusion Room as I have friends. I didn't have friends before we had the Inclusion Room or even before this school.

This is an easy place for us all to go especially as we are in different year groups. I feel normal in the Inclusion Room, the only other place I feel normal is at home. I'm happy here. I just sit down, eat my lunch and talk to my friends. I feel included. How ironic, I feel included in the Inclusion Room.

It's difficult to feel normal and included because I have autism which I think makes things more interesting.

Overall I think this is an amazing room and that everyone in school should have one.

Thank you for reading my story.
